

JOHN DEERE PRODUCT OFFERING

John Deere are one of the worlds leading agricultural and off highway vehicle manufacturers.

They have been operating in the UK and Ireland since 1966 and have established themselves as a market leading solution for the forestry and agriculture sector.

Merlin offer a full range of replacement parts for John Deere fuel injection systems from all the leading OE manufacturers.

Bosch, Delphi, Denso and Stanadyne all supply the main components for the diesel fuel delivery systems on John Deere engines. As authorised dealers we can offer all the parts needed for a swift repair.

Not only can we offer brand new, Merlin have an extensive reman exchange program which covers many OE references.

John Deere use their own unique part number system for injectors and pumps.

To assist our customers we have compiled a comprehensive list to help with the cross reference of parts.
