

HARTRIDGE TEST EQUIPMENT ANNUAL CALIBRATION SERVICE

Merlin are National Distributors in the UK and Ireland for Hartridge test equipment as well as servicing the Delphi Diesel Authorised Network.

Our role as Hartridge and Delphi Diesel National Distributors is not only to focus on supply, but aftersales support. With that in mind, Merlin has appointed a dedicated team to cater for both Hartridge and Merlin's test equipment customer base.

We are now providing an **annual Calibration and audit service** to the UK and Ireland diesel network.

Our audit /calibration team are fully Hartridge trained and approved engineers with years of experience on the complete test equipment range.

Typical Audit/Calibration procedures

- Check & certify the accuracy of your machine to give precise test results
- Identify any existing or potential problem areas with the equipment's operation
- Ensure that safety systems are working correctly
- Test the functional operation of your machine against Hartridge factory standards
- Check the metering fluid condition
- High-range Flow Measurement Checks
- Pressure Control Envelope Checks
