

S9000 MK2 HEUI TEST BENCH

For more information on the S9000 please click [HERE](#)

The Merlin **S9000** is a dual purpose test stand incorporating **HEUI** and **Common Rail** technology.

Having both Hydraulic and high Pressure components allows this unique platform to give your workshop not only the flexibility of the **All Makes Common Rail**, but also Caterpillar, Navistar and Ford off highway, HEUI capabilities.

HEUI TEST FUNCTIONS:

- Tests Caterpillar C7/C9. Navistar & Ford Powerstroke 3126 type.
- Hydraulic oil leak test.
- Hydraulic oil return.
- Injection deliveries.
- Sealing test to check for leaks.
- Touch Screen
- Built in WIFI for remote Assistance, Training, Upgrade.

COMMON RAIL TEST FUNCTIONS:

- Tests Bosch, Denso, Delphi and Siemens injectors.
- High pressure cleaning to flush out the nozzle.
- Test injection & return volume under VL, TL, LL, VE and VE2 status.
- Sealing test to check for leaks.
- Tests Piezo injectors.

Merlin's S1000 Coding Software Solution is fully compatible with the **S9000 MK2**.

The software enables the user to create **C2i/C3i, QR** and **Bosch IMA** correction codes and covers Euro 3,4,5 and we will also be extending our coverage to Euro 6.

We are also now offering a **FREE TRIAL** on our Coding Software to further benefit our customers, helping you make the right choice.
