

Latest **Direct Evolution software licenses** for 2023

Direct Evolution is Delphi Technologies software solution that provides customers with a range of technical information and data required to meet our Diagnostics, technical repair and distribution standards.

Delphi Technologies continues to develop this platform to ensure it meets the evolving requirements of our customers and the demands of the market, providing regular updates for all parts, application data, Diagnostic & Repair instructions and tooling.

2023 Direct Evolution software

Direct Evolution is offered to official distributors and members of Delphi Technologies Authorised Networks. There are several versions with appropriate content according to the requirements of the end user / network group.

■ FULL version

For the Delphi Authorised Repair Network

■ LITE version

Distributors / Customers who only require parts information

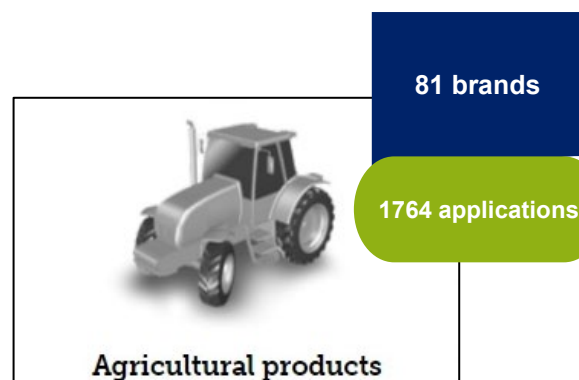

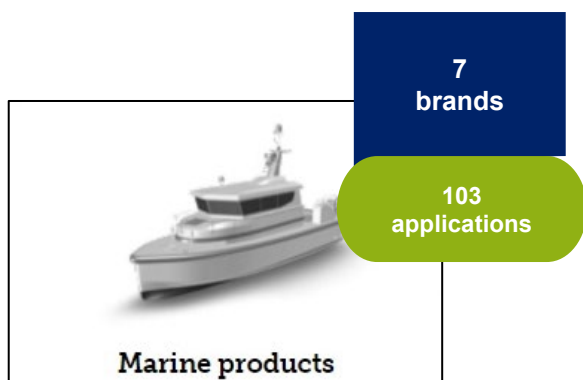

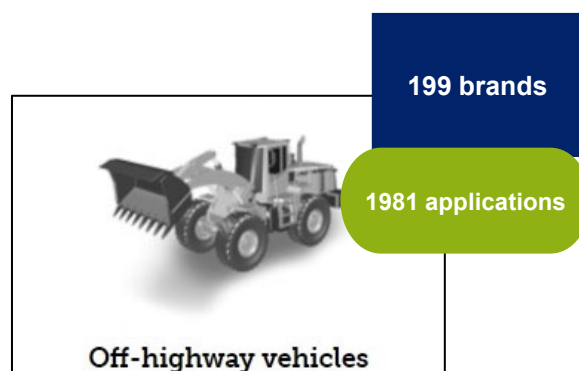

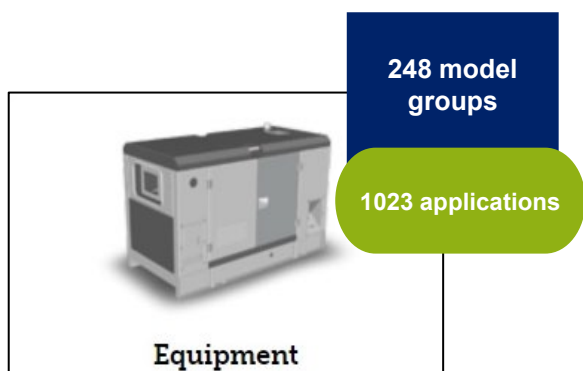

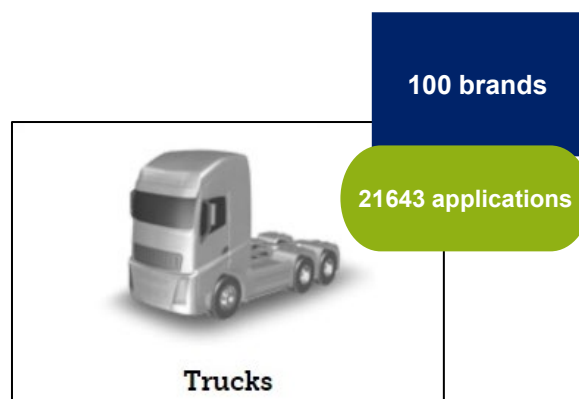

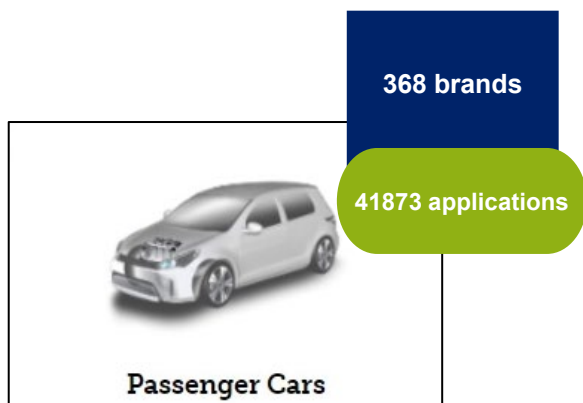

■ DSC version

Reserved to the members of Delphi Service Centre Network. It includes parts information, diagnostic help and access to a specific level of Delphi V.T.I. (Vehicle Technical Information)

(*): The DSC version of Direct Evolution is included in the DSC membership pack **DDSX533** – not available separately.
