

Health & Safety Policy

Merlin Diesel Systems Ltd including all its divisions, are committed to uphold its reputation as one of the World's leading aftermarket suppliers of diesel fuel injection products and test equipment.

Through this policy Merlin Diesel Systems Ltd makes a commitment to:

- ✓ Provide safe and healthy working conditions for the prevention of work-related injury and ill health appropriate to our activities and to the specific nature of our health and safety risks and opportunities
- ✓ Fulfil relevant legal and other requirements
- ✓ Eliminate hazards and reduce health and safety risks
- ✓ Continual improvement of the health and safety management system
- ✓ Consultation and participation of workers to protect and preserve health & safety of each other

This policy provides the framework for setting and reviewing health and safety objectives and targets that can be measured and analysed. Our policy will be communicated to all employees and suppliers working on our behalf to ensure that they are aware of our health and safety policy.

This policy is available to interested parties via our website www.merlindiesel.com. This policy is reviewed annually for continuing suitability during formal management reviews.

Full facilities are afforded to customer's representatives and approving organisations in carrying out any assessment of the health and safety management system operation.

Significant Health and Safety Aspects:

Manual Handling to minimise the risks to employee's health through effective process controls

COSHH to minimise the risks to employee's health through effective management of WELs

Noise to minimise the risks to employee's health through restricted access and management of WELs
