Delphi Technologies Training Academy

What is Delphi Technologies Academy?

An e-learning platform that provides technicians with the ability to enhance their skills and knowledge across a wide range of topics. From the very latest technology such as Hybrid/EV & ADAS right through to servicing traditional braking systems – it's all covered!

Who is it aimed at?

The breadth and depth of content means that the Delphi Technologies Academy is relevant to all levels of technician and allows users to learn at their own pace. There is no limit on the number of times that content can be viewed so its an ideal tool to refresh knowledge as well as learning new skills.

How is the content presented?

There are 8 different subject categories containing over 200 learning modules. The content is presented in a user-friendly format with an extensive library of video content being complemented by interactive text with questions. Any new content (of which there is plenty!) is highlighted on the home page to make sure that the user is always up-to-date with the latest technology.

What is Unique about the Delphi Technologies Academy?

As a global leader in automotive technology, Delph Technologies has a unique insight into how to service the vehicles of today and tomorrow. The Delphi Technologies Academy gives us the perfect platform to share this knowledge with the technician and further strengthen the skill base of the aftermarket.
