

DELPHI AUTHORISED REPAIR PARTS

Merlin are official distributors of Delphi authorised repair parts for the UK and Ireland.

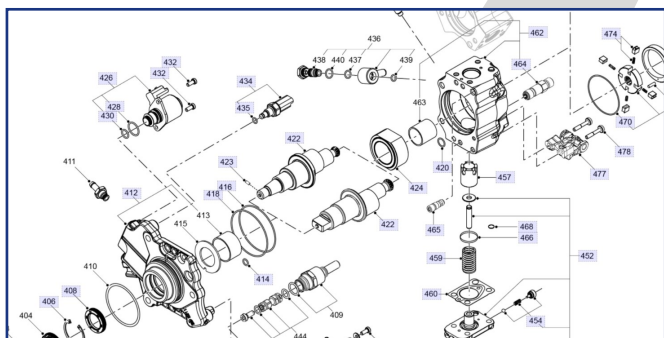

Choosing Delphi parts supplied by Merlin not only means you get high quality, but you also get parts that are OE-engineered and tested to fit right the first time and perform optimally on each pump and injector.

Whether you have a pump or set of injectors in your workshop, you can repair them with speed and confidence knowing the quality of the parts are second to none.

As Delphi distributors, we offer a full range of Diesel fuel injection components for the repair of the following:

- Common Rail pumps and injectors
- [Inline/Rotary pumps](#)
- Mechanical Injectors
- [EUI/EUP](#)
- Euro 6/Smart

Not only do we supply authorised repair parts for pumps and injectors, we also offer a comprehensive range of regulators, sensors, valves and filters.
