Delphi BlueTech **DS180 Exchange Offer**

Delphi Technologies believe every workshop should have access to the best technology and functionality required to carry out the highest quality repairs.

As pioneers of market-leading solutions, Delphi have developed a new revolutionary and intuitive diagnostic solution BlueTech VCI.

The BlueTech VCI combines advanced hardware with extensive software to deliver a futureproof diagnostic solution, providing workshops with the opportunity to maximize revenue and growth potential.

FEATURES

Flight recorder : Perfect for a one-man road test. Select your parameters, hit "Record" and review when back in the workshop. With its 4 GB internal storage capability, enjoy even more space to record all the data you need.

360° Multi colour indicator : Lets you check the status of the VCI at any time from every angle and position.

Universal : VCI can be used for cars, light commercial vehicles, trucks, buses, coaches & trailers.

Battery voltage monitor : Don't let a dead vehicle battery stop you working.

WIFI & Bluetooth connectivity to the PC : Wireless communication provides the freedom to work anywhere in the workshop, whilst maintaining a seamless connection to the vehicle.

Integrated DoIP : No need For any DoIP adaptor cable. With its built-in functionality, the VCI can be plugged directly on DoIP communicating vehicles.

Pass-thru support : Quick and easy access to OEM flash-programming services.

CAN FD Channels : Future-proof design to make the diagnostic possible on vehicles requiring this data-communication protocol.

Discover the BlueTech language

The new BlueTech VCI is designed from the ground up to meet the changing aftermarket world.

The LED icon panel and matching colour coded surround lighting, means its operation is visible to the technician from almost any angle, ensuring it is quick and easy to see the status when connected to the vehicle.

Thanks to Delphi's extensive database, the VCI also provides you with a fault probability database, including 1000s of aftermarket repairs. The new BlueTech VCI hardware is five times faster than the previous VCI. All of these enhancements lead to one thing - More power for your workshop.
