

S800 BLIND LIFT CALIBRATOR

Merlin are pleased to offer this multifunctional Common Rail Injector Solenoid/Actuator Gap measurement tool.

TEST FEATURES INCLUDE

- **RESISTANCE & CAPACITANCE MEASUREMENT**
- **INSULATION CHECK**
- **ACTUATOR STROKE**
- **BLIND LIFT CALIBRATION**

A compact, easy-to-use device with unique dynamic blind lift calibrator feature. This is a must have for any diesel workshop repairing Continental/VDO Common Rail Injectors.

The software provided gives you a live feed of the Solenoid/Actuator gap as you work, giving you micron accuracy with every adjustment you make.
